

TRAINING MANUALS

Four pedagogical manuals on economics available in French, English and Portuguese.

Volume 1 : MARKETS

For Africa today, structural adjustment is a daily reality. “Less state intervention, freer markets”, such are the conditions set by the international institutions.

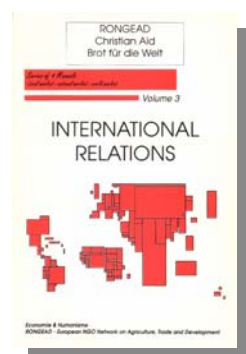

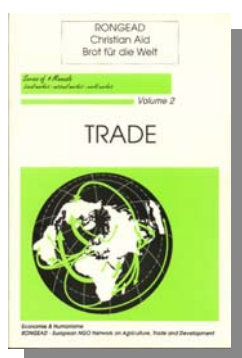

And now African economies are “re”-discovering (for they have known about the laws of the market for centuries) the “world market”, which is governed by the law of the jungle where fair trade rules and their enforcement are too often outweighed.

Meanwhile, development projects, financed or undertaken by Southern and Northern NGOs which have been set up with careful consideration given to social concerns, are now forced, if they are to remain economically viable, to play by the rules of this competition, one which is riddled with imperfections.

These four Manuals are being updated at the moment a new version will be available.

The old version can still be purchased from RONGEAD for the price of 4,57 € each manual (see purchase order form).

Volume 2 : TRADE

Volume 3 : INTERNATIONAL RELATIONS
